Jim:

I don't think you'll need many copies; I'd say no more than five to start with. You can always make more.

Thanks,

Brian Nickel, E.I.T.

Brian: thanks for the update on the status of the Idaho draft NPDES permits. Sounds like a fun summer! Yes, Ecology can make copies of the draft permits and fact sheets and make them available to public during the comment period. How many copies? Good luck with getting those draft permits out the door! Thanks!

Subject: Idaho Spokane River NPDES permits schedule update

Jim:

Now that I have the draft certifications from IDEQ for the City of Post Falls, City of Coeur d'Alene, and Hayden Area Regional Sewer Board POTWs, I can provide a reasonable estimate of when the public comment period might begin.

My goal is to get the draft permits to public comment no later than May 28th, and hold a workshop and public hearing (location TBD) on June 27th. I'm not sure I will make it, but I think it's safe to at least pencil those dates in.

Also, I was wondering if the Ecology Eastern Regional Office could make copies of the permits and fact sheets available to the public, during the comment period. Would that be acceptable?

Thank you,

Brian Nickel, E.I.T.
